Sample Web Page in Compliance with 2011 ACOTE Standard A.4.2

Program directors should use the sample below as a guide to the information that must be posted on the program's Web page.

Standard A.4.2. *Accurate and current information regarding student and program outcomes must be readily available to the public on the program's Web page. At a minimum, the following data must be reported for the previous 3 years:*

- *Total number of program graduates*
- *Graduation rates.*

The program must provide the direct link to the National Board for Certification in Occupational Therapy (NBCOT) program data results on the program's home page.

PROGRAMS MAY USE EITHER CALENDAR YEAR OR ACADEMIC YEAR WHEN PUBLISHING THE TOTAL NUMBER OF PROGRAM GRADUATES AND GRADUATION RATES FROM THE PREVIOUS 3 YEARS AS LONG AS THE TIME FRAME IS CLEARLY DELINEATED. THE PROGRAM MUST PROVIDE THE DIRECT LINK TO THE NBCOT PROGRAM DATA RESULTS ON THE PROGRAM'S HOME PAGE. THE ONLY ACCEPTABLE LINK IS: HTTPS://SECURE.NBCOT.ORG/DATA/SCHOOLSTATS.ASPX.

GRADUATION RATE: The total number of students who graduated from a program within **150% of the published length of the program**, divided by the number of students on the roster who started in the program.

Programs may still publish the NBCOT pass rates for each year (as was the requirement in the past), but because the current requirement is to post a link to the NBCOT results (https://secure.nbcot.org/data/schoolstats.aspx), programs are no longer required to have pass rate data published on their Web page.

SAMPLE:

The total number of graduates from the Sample University Master of Occupational Therapy program during the 3-year period of 2011-2013 was 116, with an overall graduation rate of 97%.

Graduation Year	Students Entering/Graduating	Graduation Rate
2011	42/40	95%
2012	38/38	100%
2013	40/38	95%
Total	**120/116**	**97%**

Program results from the National Board for Certification in Occupational Therapy (NBCOT) can be found online at https://secure.nbcot.org/data/schoolstats.aspx
