It Takes Occupational Therapy

In the passionate words of practitioners, educators, parents, and others, this fast-moving, 5-minute video presents a starting point to talk about the impact, value, scope, and breadth of occupational therapy. Use for discussions with clients and their families, payers and referral sources, prospective students, legislators and members of the media, teachers and parents, and so many other audiences who want to get the occupational therapy message.

5 min., 2003

Occupational Therapy: Making It Possible

When you're explaining occupational therapy, this inspiring video helps set the stage with stories about how occupational therapy makes a difference in the lives of people with disabilities. Use this video to talk with parents, teachers, and high school counselors; prospective OT or OTA students for recruitment purposes; and the media. Promote OT and OTA programs at your college or university.

10 min., 2002
