Task Analysis: An Individual and Population Approach, 2nd Edition

CD-ROM

BY DIANE E. WATSON, MBA, OTR/L, BCP, AND SYLVIA WILSON, MSC, OT

“This is a much-needed text. . . [that] will enable educators to make the Framework a living, breathing document.”

—Neil Penny, MS, OTR/L, Program Director, Occupational Therapy, Alvernia College

Incorporates the *Occupational Therapy Practice Framework* and focuses on understanding clients and their immediate environments and how to improve client’s health. Excellent for students and practitioners to expand their skills in analyzing patients, organizations, and populations.

Includes a CD-ROM with original forms, plus new forms designed for the Canadian health care system.

ISBN-13: 978-1-56900-182-0, 207 pages, 2003

The Texture of Life: Purposeful Activities in Occupational Therapy, 2nd Edition

EDITED BY JIM HINOJOSA, PHD, OT, FAOTA, AND MARIE-LOUISE BLOUNT, AM, OT, FAOTA

Throughout the new edition of this bestseller, contributors use language and expression—particularly from the *Occupational Therapy Practice Framework* and the *International Classification of Functioning, Disability, and Health*—to broaden understanding of human activity and the idiosyncratic ways in which people orchestrate activities in their lives. Chapters showcase applications of this new understanding in real and practical ways—through case studies and thoughtful exercises—to help professionals become more artful in the practice of occupational therapy. For students new to the field, this book lays down a blueprint to guide professional preparation and entry into the practice milieu.
