

PresentEase™—The Environmental Adaptation Teaching Tool: A PowerPoint™ Visual Library

BY MARGARET CHRISTENSON, MPH, OTR, FAOTA

Complete Set (Version 2)

This newly revised edition contains all 5 of the Present Ease™ modules, including the 2 mentioned below, plus an additional 200 pictures that incorporated new designs, illustrations, and resources. These real-life images capture concepts and solutions for understanding and implementing environmental modification in senior housing, assisted living, long-term-care facilities, homes, and more. Use this tool for training practitioners working in home health, long-term care, and other geriatric facilities to be more aware of the environmental situations that affect older clients and clients with physical disabilities. Excellent for classroom instruction.

Adults With Developmental Disabilities: Current Approaches in Occupational Therapy, Revised Edition

EDITED BY MILDRED ROSS, OTR/L, FAOTA,
AND SUSAN BACHNER, MA, OTR/L, FAOTA,
CEAC

This client-centered approach offers clinicians a working guide on the myriad legislative changes, attitudinal advances in human rights, and lessons learned from evidence-based practice and research in all aspects of health care, especially occupational therapy, that have affected adults with developmental disabilities. This inspiring book for occupational therapy practitioners and students takes a client-centered approach to developmental disabilities—one aligned with the philosophy of self-determination—and provides clinicians with a working guide for practice with this population.
