

AOTA Older Driver Safety

Occupational therapists play an active, professional role in serving needs related to driving evaluation, intervention, and community mobility. Driving will play an increasingly important role in enabling older drivers to stay connected to their communities. See AOTA's Older Driver Web site for resources, professional development, and much more at www.aota.org/olderdriver.

Driver Rehabilitation Across Age and Disability: An Occupational Therapy Guide

BY SUE REDEPENNING, OTR/L, CDRS

CD-ROM

As the profession of driver rehabilitation grows, everyone who works with people with disabilities or senior citizens must feel comfortable discussing driving issues and, if needed, offering resources to fully address this skill. This book is a concise, practical learning tool for a variety of medical professionals and will raise the awareness of the skill of driving as an IADL and of the skills of the occupational therapy driver rehabilitation specialist.

Driving and Community Mobility for Older Adults (AOTA Practice Guidelines)

BY WENDY B. STAV, PHD, OTR/L, SCDPM; LINDA A. HUNT, PHD, OTR/L; AND MARIAN ARBESMAN, PHD, OTR/L

Using an evidence-based perspective and key concepts from the *Occupational Therapy Practice Framework*, this guideline provides an overview of the occupational therapy process from driving to community mobility among older adults. It defines this process and the nature, frequency, and duration of intervention that occurs within the boundaries of acceptable practice. It also can serve as a reference for health care practitioners, state driver licensing agencies, age-related agencies, transit and transportation authorities, municipal planning organizations, older adults, families and caregivers, health care facility managers, education and health care regulators, third-party payers, and managed care organizations.
