

SELECTED 2025 HCPCS LEVEL II CODES FOR UPPER EXTREMITY ORTHOSES

The following selected Healthcare Common Procedure Coding System (HCPCS) Level II codes are frequently used by occupational therapy practitioners to report fabrication and fitting or supply of specific upper extremity (UE) orthoses and prostheses. Not all codes are accepted by all payers, including Medicare. State regulations and/or payer policies may establish limitations on the use of one or more of these codes. Always review state rules and the official HCPCS manual, and request information from specific insurers concerning the use of codes and payment policy.
